

ATTIC ANGEL COMMUNITY

Attic Angel Community believes in diversity and inclusion among our volunteers, staff and residents. We value a culture of many voices and ideas. Our community is stronger when we create an environment including people of all races, sexual orientations, and ethnicities.

We commit to respect, embrace and learn from differences, and educate ourselves and advocate for racial and economic justice, equality, and equity. We commit to recruit, retain, and mentor a diverse workforce and volunteer organization. We will work with community leaders and the philanthropic community to address systemic racism.
